

App\DTOs\Responses
\BulkActionStatus\createInitial

App\DTOs\Responses
\BulkActionStatus\createProcessing

App\DTOs\Requests\Product
\ProductBulkActionRequest
\toArray

```
graph LR; A["App\DTOs\Responses<br>\BulkActionStatus\createInitial"] --> C["App\DTOs\Requests\Product<br>\ProductBulkActionRequest<br>\toArray"]; B["App\DTOs\Responses<br>\BulkActionStatus\createProcessing"] --> C;
```

The diagram illustrates a mapping from two response DTOs to a request DTO. On the left, two white boxes represent response DTOs: 'App\DTOs\Responses\BulkActionStatus\createInitial' and 'App\DTOs\Responses\BulkActionStatus\createProcessing'. On the right, a gray box represents a request DTO: 'App\DTOs\Requests\Product\ProductBulkActionRequest\toArray'. Two blue arrows point from each response DTO to the request DTO, indicating that both response types are associated with or mapped to the request type.
