

App\Services\PaginationService  
\createPagination

App\Services\PaginationService  
\getSummary

App\DTOs\Queries\Pagination  
Query\getPage

```
graph LR; A["App\Services\PaginationService  
\createPagination"] --> C["App\DTOs\Queries\Pagination  
Query\getPage"]; B["App\Services\PaginationService  
\getSummary"] --> C;
```

The diagram illustrates a mapping from two service methods to a single query method. On the left, two white rectangular boxes represent service methods: '\createPagination' and '\getSummary', both within the 'App\Services\PaginationService' namespace. Blue arrows point from each of these boxes to a single gray rectangular box on the right, which represents the 'App\DTOs\Queries\PaginationQuery\getPage' method.
