

App\Entities\Admin
\demoteToAdmin

App\Entities\Admin
\promoteToSuperAdmin

App\Entities\Admin
\setRole

```
graph LR; A["App\Entities\Admin<br/>\demoteToAdmin"] --> C["App\Entities\Admin<br/>\setRole"]; B["App\Entities\Admin<br/>\promoteToSuperAdmin"] --> C;
```

The diagram illustrates a dependency or relationship between three methods. Two methods on the left, `\demoteToAdmin` and `\promoteToSuperAdmin`, both have arrows pointing to a third method on the right, `\setRole`. The `\setRole` method is highlighted in a gray box, while the others are in white boxes with black borders.
