

App\Services\Transaction
Service_destruct

App\Services\Transaction
Service\createSavepoint

App\Services\Transaction
Service\releaseSavepoint

App\Services\Transaction
Service\isActive

```
graph LR; A["App\Services\TransactionService\_destruct"] --> D["App\Services\TransactionService\isActive"]; B["App\Services\TransactionService\createSavepoint"] --> D; C["App\Services\TransactionService\releaseSavepoint"] --> D;
```

The diagram illustrates a dependency or relationship where three methods from the 'App\Services\TransactionService' namespace point to the 'isActive' method. The source methods are '_destruct', 'createSavepoint', and 'releaseSavepoint'. The target method is 'isActive'. Blue arrows indicate the direction of the relationship from each source method to the target method.
