

App\Models\ProductModel  
\findByCategoryPaginated

App\Models\ProductModel  
\findRelated

App\Models\ProductModel  
\scopeByCategory

```
graph LR; A["App\Models\ProductModel<br>\findByCategoryPaginated"] --> C["App\Models\ProductModel<br>\scopeByCategory"]; B["App\Models\ProductModel<br>\findRelated"] --> C;
```

The diagram illustrates a mapping from two specific method calls to a single, more general scope. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'App\Models\ProductModel' followed by '\findByCategoryPaginated' on the next line. The bottom box contains 'App\Models\ProductModel' followed by '\findRelated' on the next line. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the top of a gray rectangular box on the right. The arrow from the bottom box points to the bottom of the same gray box. The gray box contains the text 'App\Models\ProductModel' followed by '\scopeByCategory' on the next line.
