

App\Services\AdminService  
\bulkActivate

App\Services\AdminService  
\bulkDeactivate

App\Services\AdminService  
\toggleStatus

```
graph LR; A["App\Services\AdminService<br>\bulkActivate"] --> C["App\Services\AdminService<br>\toggleStatus"]; B["App\Services\AdminService<br>\bulkDeactivate"] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, two white rectangular boxes represent source methods: '\bulkActivate' and '\bulkDeactivate', both under the namespace 'App\Services\AdminService'. On the right, a gray rectangular box represents the target method '\toggleStatus', also under the same namespace. Two blue arrows point from the source boxes to the target box, indicating that both '\bulkActivate' and '\bulkDeactivate' are associated with or mapped to '\toggleStatus'.
