App\Entities\Marketplace
Badge\toArray

App\Entities\Marketplace
Badge\canBeArchived

```
graph LR; A["App\Entities\Marketplace<br/>Badge\archive"] --> C["App\Entities\Marketplace<br/>Badge\canBeArchived"]; B["App\Entities\Marketplace<br/>Badge\toArray"] --> C;
```

The diagram illustrates a dependency or inheritance relationship. On the left, two white rectangular boxes represent source methods: 'App\Entities\Marketplace Badge\archive' (top) and 'App\Entities\Marketplace Badge\toArray' (bottom). On the right, a gray rectangular box represents the target method: 'App\Entities\Marketplace Badge\canBeArchived'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both source methods depend on or inherit from the target method.
